DEPARTMENT OF MASTER OF COMPUTER APPLICATIONS

Project Work

Weekly Report for the Academic Year 2026-27

Subject Name: - Project Work

Subject Code: - MPRJ384

Name :	M Ashish Ramana
USN :	1BI25MC060
Project Title :	DataPilot AI : Autonomous Business Intelligence Platform

From : 22-09-2026	To: 28-09-2026
Data Classification and Schema Discovery 1. Worked on automatic dataset understanding and business-domain classification using column names, data types, sample values, and detected relationships. 2. Developed the initial schema discovery process to identify tables, columns, keys, and relationships between datasets. 3. Integrated persistent data storage concepts using PostgreSQL/DuckDB for making validated datasets queryable. 4. Designed the business knowledge graph structure for representing important business entities, KPI definitions, and relationships. 5. Tested the data understanding workflow with sample datasets and refined the processing sequence for subsequent natural-language analytics.	
..... (Internal Guide)	 (HOD, Dept. of MCA)

Vision : To transform young graduates into skilled computer professionals to meet industrial and societal needs.

Mission: To enhance the Teaching learning process to meet quality education in the field of computer applications.
To impart the knowledge in current technologies to meet the industrial needs.
To inculcate ethical values and leadership qualities for the betterment of society.
