DEPARTMENT OF MASTER OF COMPUTER APPLICATIONS

Project Work

Weekly Report for the Academic Year 2026-27

Subject Name: - Project Work

Subject Code: - MPRJ384

Name :	M Ashish Ramana
USN :	1BI25MC060
Project Title :	DataPilot AI : Autonomous Business Intelligence Platform

From : 07-09-2026	To: 14-09-2026
Project Planning and System Architecture 1. Studied and finalized the overall requirements and workflow of the DataPilot AI project. 2. Defined the end-to-end data analytics pipeline covering data ingestion, validation, business-domain classification, schema discovery, storage, querying, visualization, recommendations and reporting. 3. Reviewed supported data sources such as CSV, Excel, JSON, Parquet and database sources. 4. Designed the high-level system architecture and identified the major modules and agents required for the platform. 5. Finalized the initial technology stack and development plan for implementing the analytics workflow incrementally.	
..... (Internal Guide)	 (HOD, Dept. of MCA)

Vision : To transform young graduates into skilled computer professionals to meet industrial and societal needs.

Mission: To enhance the Teaching learning process to meet quality education in the field of computer applications.
To impart the knowledge in current technologies to meet the industrial needs.
To inculcate ethical values and leadership qualities for the betterment of society.
